

## The Closing of *Club Nintendo*

Yes, sadly, folks, *Club Nintendo* is closing. The fun reward system that was slowly dying down. For those of you who don't know, *Club Nintendo* is a reward system that when you buy something from Nintendo, there is usually a code in it that you put in online at club.nintendo.com. You get a certain amount of coins from each purchase, and then you take a

survey about why you bought the game or system, which will provide you with more coins.

For a system, you link your *Club Nintendo* account to that system, providing you with more coins. With these coins you can get or buy Nintendo merchandise, like shirts and cases. With coins you can also get a downloadable game like *Dr.Luigi* or *Kid Icarus Uprising* (and even in one point of time controllers). The prizes do change from time to time, about every month. Also, *Club Nintendo* allows you to get Mewtwo for *Smash Bros Wiiu* and *3ds* when you register both games.

*Club Nintendo* might be closing because of the lack of meaningful responses from the fans. Also the prizes haven't been too good lately so before the last couple of months Nintendo threw out a lot of good prizes, a couple of really nice ones, and a dozen of "eh" ones.

In any case, *Club Nintendo* is closing so I suggest you sign up soon, if you want Mewtwo or any other reward for all the games you buy or systems. Sign up NOW! by *Lascelles M.* (See the website for important dates related to *Club Nintendo*)

NINTENDO

## App Review

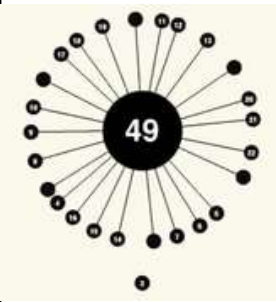

The app "aa" is a very simple game. You are supposed to tap the screen, and get the dots inside the other dots without allowing the dots to touch. You have to get rid of all of your dots to beat the level that you are on. There are a total of 97 levels.

Of course, the game "aa" is not the type of game that you should play if you have a bad temper. It might make you want to smash your phone because it is almost impossible to beat some levels.

Overall, "aa" is a very addicting and frustrating game, that'll make you want to delete it and

then you will regret deleting it if you do. -GJ

FASHION

## SPRING PHOTO SHOOT

April 22, 2015 Sign up on the website if you want to be involved in the fashion shoot... In the comment box please leave your homeroom teacher and grade. We will email you all the information.

TECHNOLOGY

**ROKU 3** This is the Roku 3. This device you can plug into your HD TV and then you can watch tv for free and with subscriptions. You can get some channels, shows, and music for free using crackle, youtube, and pandora. Things you can subscribe for are Netflix, Hulu plus, and Amazon Instant Video. You can also rent or buy shows and movies. It comes with a remote with basic controls. This version of

the remote also has retractable headphones that come right out of it, to allow for a silent viewing experience. You can get your own Roku 3 for \$100.

## Since You've Been Gone

by *Morgan Matson* Emily, a shy girl who lets her best friend, Sloane, do all the talking. Sloane, an outgoing, rambunctious, and daring girl who would do anything for Emily. The two are connected at the hip and are known to be together at all times, so when Sloane mysteriously disappears with only a list of challenges for Emily to complete Emily is left in a state of shock. *Apple picking at night? Okay, easy enough. Dance until dawn? Sure. Why not? Kiss a stranger? Wait...what?* Read the book to see how Emily crosses off the thirteen challenges with the help of some new and... interesting friends. Buy this book on an e-reader or in a local Barnes and Noble. -Faith :)

**You Decide** The people here at AW news are looking for YouTubers to review. So we are giving you the mouse to suggest what the articles may be about, but it will be still up to us choose them. If you want to be a guest writer, you can submit an article this way, too!

# A.W. ACTION NEWS

**Tonight's Spring Canteen** Imagine that you've just gotten out from a long day of school, and a few hours later, you're on your way to back. Crazy, right? Why would you be doing this? I mean, it's Friday! TGIF! Who goes to school voluntarily on a Friday night? Well, this isn't any ordinary Friday, it's the annual spring canteen here at Anthony Wayne! Each and every year, so many students look forward to these canteens. They are a way to hang out with your friends, and just have a good time! Of course, going to the canteen isn't mandatory, and not everyone does go. No one has to go to them every time, but if you are planning to go to this one, and it happens to be your first, here's what you should expect!

SCHOOL EVENTS

Snacks. Lots and lots of tasty, delicious snacks. Parents and fellow student bring in dozens of yummy treats for you and your friends to share on this spectacular night! The PTO even pitches in and

orders enormous amounts of pizza, gets snow cone machines, and even a popcorn machine! Make sure to bring your appetite!

Be ready to pop and lock! As per usual, the cafeteria will be converted into the canteen's dance floor, where students can show off and have fun. Just follow the sound of music and laughing and you're there! Remember, we are all there to just have a blast!

Just in case you're not crazy about the dancing, there going to be a bunch of games and inflatables to play on in the gym. The PTO tries to get new ones each time. Who knows, maybe they'll have the giant wrecking ball, maybe get the huge slide, maybe the game show will even come back! Either way, if you go tonight, be sure to stop by and give some of these awesome rides a chance!

For all of those AWMS 8th graders who are thinking about coming, it's only right to let you know, if you didn't already, that this is officially your last canteen over here at Anthony Wayne. So, if you can, bring money to the office and make your best effort to come tonight! It's our last canteen here at AWMS before heading off to the legendary high school. Try to enjoy your last moments here at AWMS, before it's all over!

## Washington, D.C. Trip Important Information

Attention Eighth Graders! This Friday, at the beginning of our lunch

period, there will be a short assembly concerning this year's Washington, D.C. trip. Make sure to come to the lunch room to attend the meeting before going to band, art, or some other class. Many of you may be thinking, "This trip is still months away! Why are we having an assembly about it?" Even though there is still much time before we embark on our journey to the United States' Capital, there are many forms that must be filled out, as well as payments to be made. In fact, in just a month, on March 27, the final payment and three important documents are due.

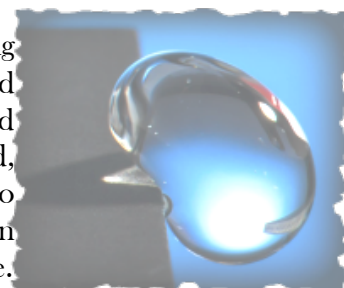

For more information and also to obtain the forms, you can go to the Anthony Wayne website at <http://aw.wayneschools.com> under the "School Communications" and "Notices & Documents" tab.

- Andy B.

## Super-Hydrophobic Metal

This is a new metal that can repel water, ice, and rust. At Rochester's Institute of Optics, they designed a laser that would make this metal. They use patterns of micro and nano scale structures to give the metal its water repellent properties. In the future, Engineers plan to apply this to other things. This could change everything.

No more replacing crusty and rusty old things, or waterlogged electronics. Instead, you would be able to keep them forever in a nice and clean state.
